

**piccadilly jim penguin books p g wodehouse** - *i am an avid fan of pg wodehouse and have read every one of his 99 yep 99 books his stories are simple enough but the magic is in the humor the marvelous similes and the exquisite creative use of the english language which all add up to pure entertainment and which leave one breathless in admiration, **the comically serious tv tropes** - karakuri circus narumi s nonexistent sense of humor is a problem because only causing someone to laugh will halt his incurable cough of death crosses over into so unfunny it s funny at times raven from gravion though this is a result of literally becoming the mask ayaka the current raven is a woman and far more emotional than her unfunny alterego*
